FIBRE BROADBAND IS HERE

www.superfastworcestershire.com

HAVE YOU GOT IT?

We’re building a pioneering, multimillion pound network transforming 96 per cent of Worcestershire’s broadband speeds by December 2019. This means that communications providers (companies who supply telephone, broadband and TV services) can deliver high speed fibre broadband to you. Having a fibre broadband connection has many benefits.

At home, fibre broadband isn’t just about a faster internet experience or about doing one thing quicker. It’s about everyone in the house being able to do their own thing, all at the same time.

For businesses it’s the upload speeds that really make a difference. Fibre broadband enables small businesses to work faster and more efficiently, reducing the need to travel. Having faster upload and download speeds also means small businesses can benefit from job creation and business expansion.

Talk to your communications provider about getting superfast broadband, it doesn’t cost much to upgrade. Visit our website to find out more:

Whatever you’re doing online, do it faster and more efficiently with fibre broadband:

- watch HD movies, catch up with your favourite TV on demand, download music in seconds
- get instant access to shared online workspaces and files
- stay in touch with business contacts or catch up with friends and family with live video calls
- upload photos and videos to social networking sites in an instant
- fast transfer and back-up of data
- school and educational online tools are accessible in seconds
UPGRADING TO FIBRE BROADBAND IS EASY

<table>
<thead>
<tr>
<th>Step 1</th>
<th>Go to <a href="http://www.superfastworcestershire.com">www.superfastworcestershire.com</a> and click on ‘When and where’.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Step 2</td>
<td>Enter your phone number or post code to confirm you can order fibre broadband.</td>
</tr>
<tr>
<td>Step 3</td>
<td>If fibre broadband is available to you, contact an Internet Service Provider to upgrade. The network is open so you can upgrade to fibre with an Internet Service Provider of your choice. We recommend shopping around for a good deal.</td>
</tr>
</tbody>
</table>

Of course, if you already have ‘basic’ broadband and want to switch to a fibre package, you can simply contact your current service provider to ask for an upgrade. You may find your service provider may be able to offer you a good deal to retain your custom. Please take note that the upgrade to fibre isn’t automatic.

Our roll-out is ongoing, so if fibre broadband isn’t yet available to you, register your interest on our website. We’re here to help.
